

SPEHO

ILLUMINATED MIRRORS

P R O J E C T S

Specialists in the design and manufacture of
bespoke illuminated mirrors for projects.

Headquarters

An EBIR brand

SPEHO is a perfect combination of design, innovation and functionality in a single product: illuminated mirrors.

EBIR's experience spanning over twenty-five years, our own internal R&D&I Department and manufacturing facilities in Spain confer added value to projects.

We are specialists in the design and manufacture of illuminated mirrors for projects.

+30 years of
Experience

Facilities

Our products

To create our mirrors, we combine emotional impact, materiality and the aesthetic concept of top of the range decorative accessories with the high performance lighting capability of LED.

Thanks to this technology, all SPEHO's products are highly functional tools, and a fundamental centrepiece around which the design of your bathrooms, living rooms, corridors and commercial areas can be planned, where light plays a fundamental role.

Our mirrors, developed through strong synergy between an industrial design approach, craftsmanship and a high level of product customisation, are designed as a primary lighting source in each room.

Made
in Spain

Waranty and trust

All our mirrors are certified according to the highest quality and safety standards. We are so confident in the quality of our mirrors that they all come with a 5-year warranty. In addition, we offer our clients a professional Technical Assistance service.

Facilities, innovation and team

Our manufacturing, storage and distribution facilities are located in Valencia, Spain.

The company has, at an international level, more than 250 employees highly specialized in lighting.

25,000 m² facilities where an important space is dedicated to the innovation and design of new proposals, testing laboratories with real users and the different product quality tests.

Commitment to sustainability

Firmly committed to sustainability, in all our mirrors we take advantage of the energy savings that LED technology entails, with the aim of making it more efficient every day; and we are constantly working to incorporate more recyclable and replaceable components into our products, and to deliver them to our customers in more sustainable packaging.

Over 35.000
hotel rooms lit up.
